Hunter®

Add Wi-Fi to the
X2 Controller with
WAND 🔊 ⑧®

hunter.info/WAND

01 | **Connected:** Bluetooth® pairing makes connecting to Wi-Fi faster and easier

02 | **Adaptable:** Adaptable: Use your smartphone as a manual remote when Wi-Fi is unavailable or the controller is hard to access

03 | **Efficient:** Copy and paste Hydrawise™ Software scheduling to any X2 Controller for full schedule setup in seconds with Rapid Programming™ Technology

X2™ CONTROLLER

The versatile X2 Controller delivers highly efficient and reliable automatic irrigation for residential and light commercial applications. The simple, plug-in WAND Module enables smart irrigation management with Hydrawise Software for remote access and programming.

WAND offers the latest wireless Bluetooth® Technology, so you can operate the system remotely with your smartphone. This capability lets you easily install the X2 Controller using the Hydrawise App if Wi-Fi is unavailable. It allows you to access the controller when it's in a hard-to-reach location or you want to maintain distance for security or health reasons. You can also manage an unlimited number of controllers, receive instant status updates, and get system alerts via Hydrawise Software.

Speed up maintenance
Control X2 remotely with a ROAM (300 m) or ROAM XL (3 km).

Save water and more by adding a Rain-Clik™ Sensor
Built-in Quick Response™ Technology shuts down irrigation as soon as it starts raining.

X2 FEATURES & SPECIFICATIONS

X2 Key Benefits

- Wi-Fi capable managed by Hydrawise Software
- 3 flexible programs with 4 start times each and run times up to 6 hours
- Backlit display provides optimal visibility in any setting
- Compliant junction box allows connection with 110 and 220 V power supplies
- QuickCheck™ Technology provides simple diagnostics of faulty field wiring
- Hide Programs option displays one program and one start time for simplification
- Suspend irrigation for up to 99 days during the off season
- Short-circuit protection detects wiring faults and skips the station without system damage
- Easy Retrieve™ Memory backs up the full irrigation schedule
- Delay Between Stations for slow-closing valves or pump recharge
- Cycle and Soak prevents water waste and runoff in areas with elevation changes or tight soils
- Seasonal adjustment for quicker schedule adjustments without changing run times
- Warranty period: 2 years

WAND Wi-Fi Module Key Benefits

- Provides online irrigation management with controller status and faulty wiring alerts
- Increased programming with 6 start times with run times up to 24 hours
- Predictive Watering™ provides precise weather adjustments for maximum water savings
- Compatibility with Amazon Alexa™, Control4®, and HomeSeer™ home automation
- Bluetooth pairing makes connecting to Wi-Fi faster and easier
- Use your smartphone as a manual remote when Wi-Fi is unavailable or controller is hard to access
- Copy and paste Hydrawise Software scheduling to any X2 Controller for full schedule setup in seconds with Rapid Programming Technology
- Warranty period: 2 years
