The Toro® T5 RapidSet® Series Rotor. With all the features to satisfy all your basic irrigation needs while surprising you with a few extras, the T5 offers an extra inch of pop-up height compared to most competitive units. All lawn models are now available with the optional RapidSet® feature, a quick and easy way to make arc adjustments—with NO TOOLS. The stainless steel riser and nozzle base of the T5 RapidSet® Stainless Steel rotor not only add strength, but help protect the rotor from damage and excessive wear due to vandalism or abrasive sandy soils which can cause scoring of a plastic riser. Over time, this can lead to leaks at the wiper seal or an inability for the riser to fully retract.

*RapidSet® arc adjustment  
requires NO TOOLS!*

# T5 RAPIDSET SERIES ROTORS

## Features & Benefits

- 1 127mm (5") Pop-Up**  
Easily replaces many competitive 100mm (4") units in the same footprint but delivers an extra inch of pop-up.
- 2 Standard Rubber Cover**  
The top of the sprinkler is covered with a heavy duty rubber cover to minimize impact injuries and reduce liability.
- 3 Airfoil™ Technology Nozzles**  
The T5 RapidSet rotor comes with a full set of 8 standard nozzles (25° trajectory) and 4 low angle (10° trajectory) nozzles that utilize patentpending Airfoil technology, which creates a zone of low pressure just below the main stream to gently guide water downward for unmatched uniformity without forcefully washing out newly-laid seeds.
- 4 Optional Check Valve**  
Available with a hold back strength of 2,1m (7') of elevation change.
- 5 Top Adjust Arc Set**  
The T5 can be set between a minimum arc set of 40° and a full circle set of 360°. Arc changes are made from the top of the sprinkler while popped up or down by using a small slotted screwdriver.
- 6 RapidSet® Arc Adjustment**  
Easy tool-free arc adjustment, without any risk to overtorque and damage the interior of the rotor.

**Nozzles**  
Geometry on the face of the nozzle creates breakup.

Stream straighteners align the water flow behind the nozzle.

- ⑥ **RapidSet® Arc Adjustment**  
Easy tool-free arc adjustment, without any risk to overtorque and damage the interior of the rotor.
- ⑦ **Commercial-grade 304 Stainless Steel Riser and Nozzle Base Sleeves**  
Helps prevent 'stick ups' and eliminates scoring of riser caused by coarse and sandy soils.
- ⑧ **Heavy-duty Construction**  
Protects riser and nozzle base from damage caused by vandalism.

RapidSet® arc adjustment requires NO TOOLS!
